System Status	Developed System Documentation
System Name	Nepal Life Project AMS.

Created By: Rahul Kumar Jha.

Version 1.0

July 2026

CONFIDENTIAL — For Internal Use Only

This document describes the completed Asset Management System (AMS) from a functional, technical, workflow, and operational perspective. It is intended to help management, system administrators, department heads, asset custodians, approvers, and general users understand how the system works and how to use its various modules, including Asset Management, Issue Tracker, and related workflows.

Digital Library System Step-by-Step Manual

Login to System

1. Open the Digital Library system URL: [/http://192.168.0.50:88/login](http://192.168.0.50:88/login) in your browser.
2. Enter your official Nepal Life email account and same password of that email. Click Login button and Login.

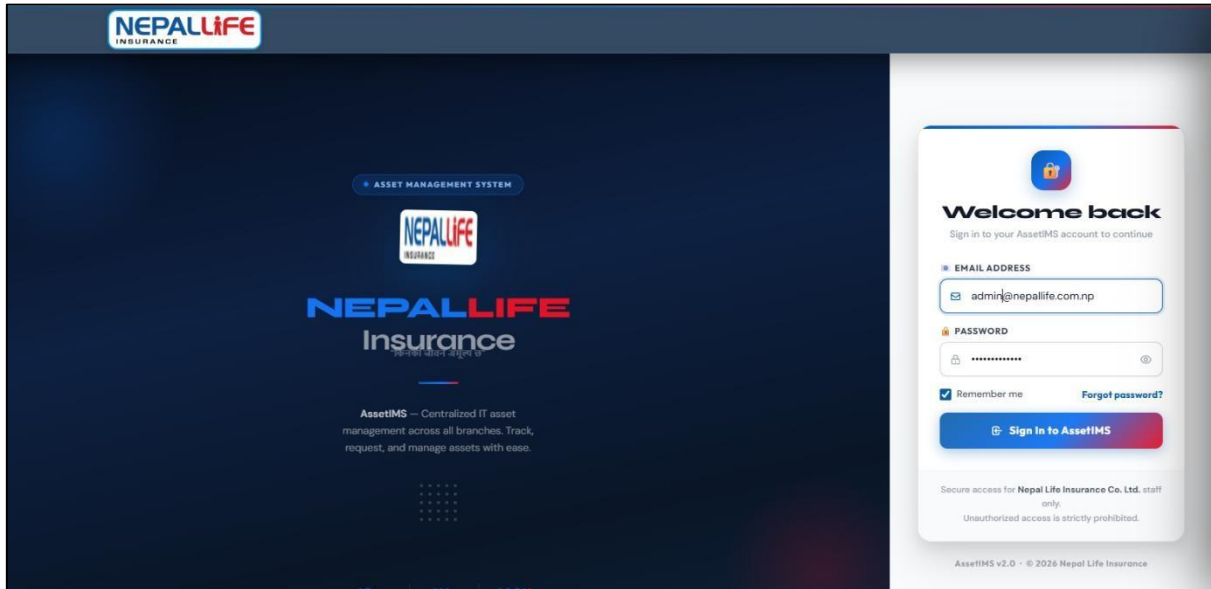

Fig: Login Page

Landing Page/Dashboard:

After logging in, the dashboard/Landing page opens as the first page.

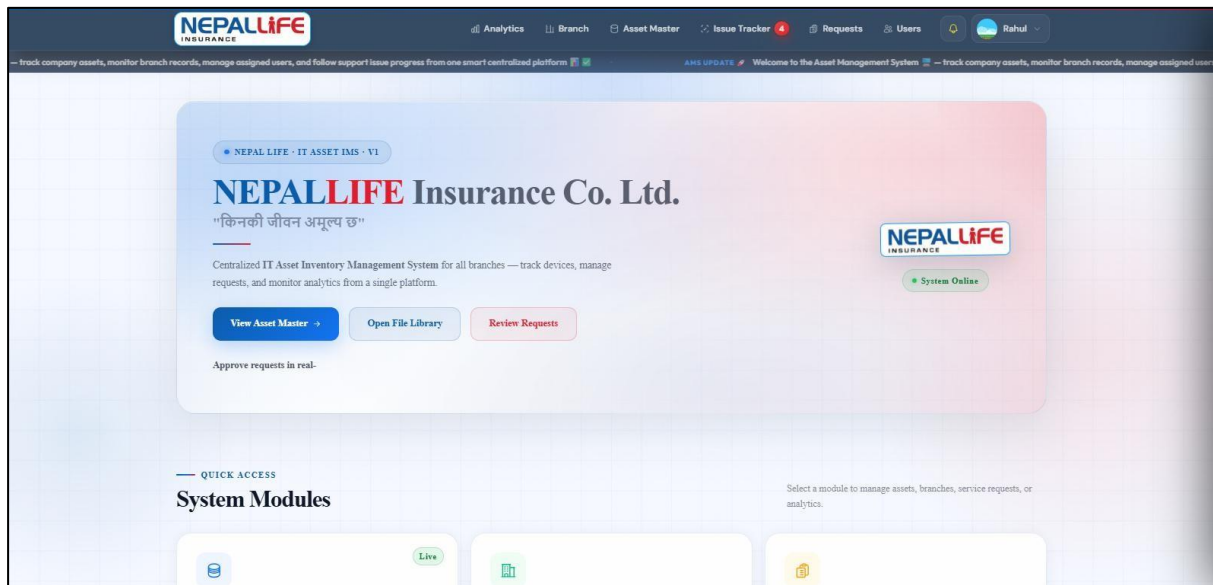

Fig: Landing Page or Dashboard

Navbar:

Click on the nav menu to open **Issue Tracking Page**.

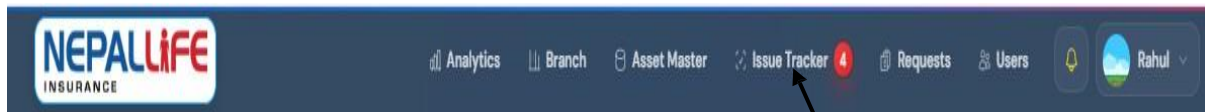

Fig: Navbar

Click to open Issue Tracking page

Issue Tracker Page:

This is the **Issue Tracker** page that displays all recorded issues and support tickets in a single location. Users can search, filter, and manage records to quickly locate and track issue status.

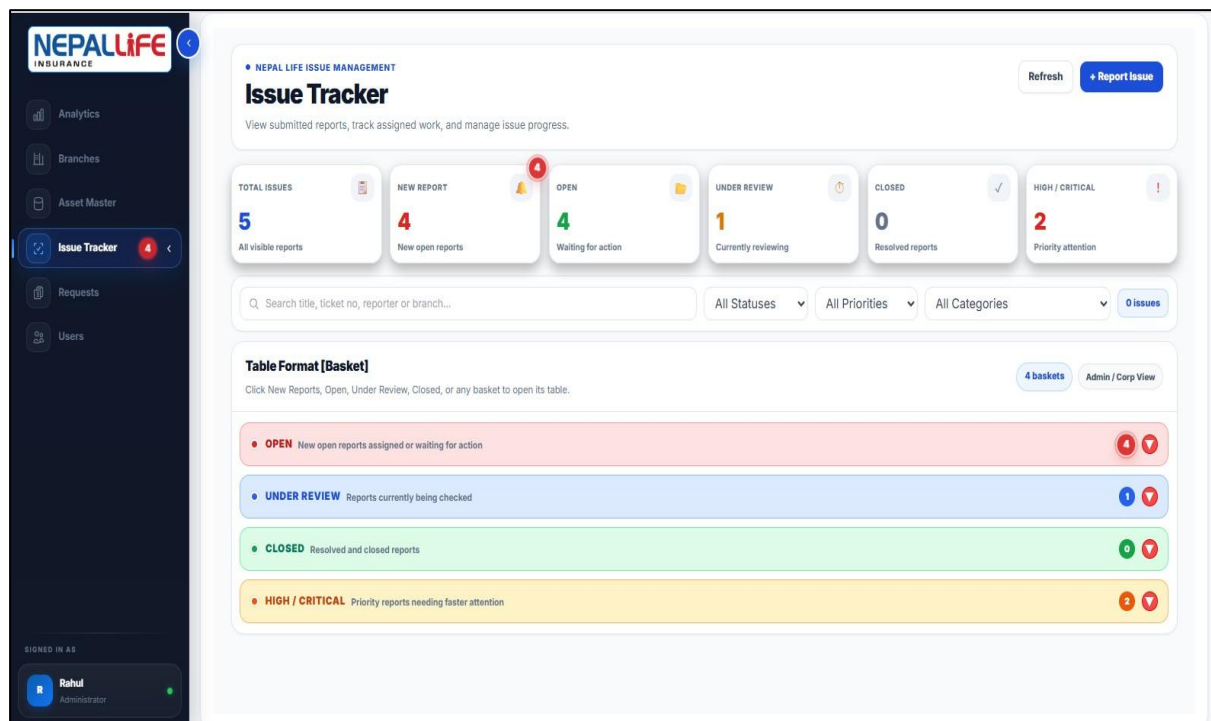

Fig: Issue Tracker Page.

Here, users can report a new issue by submitting a ticket and assigning it to the Head Office or Corporate Office for review, response, and resolution.

Issue Tracker Status Cards and Filter:

The Status Cards provide a quick summary of issues by status and priority. Each card also functions as a filter, allowing users to display only the issues belonging to the selected category in the table below.

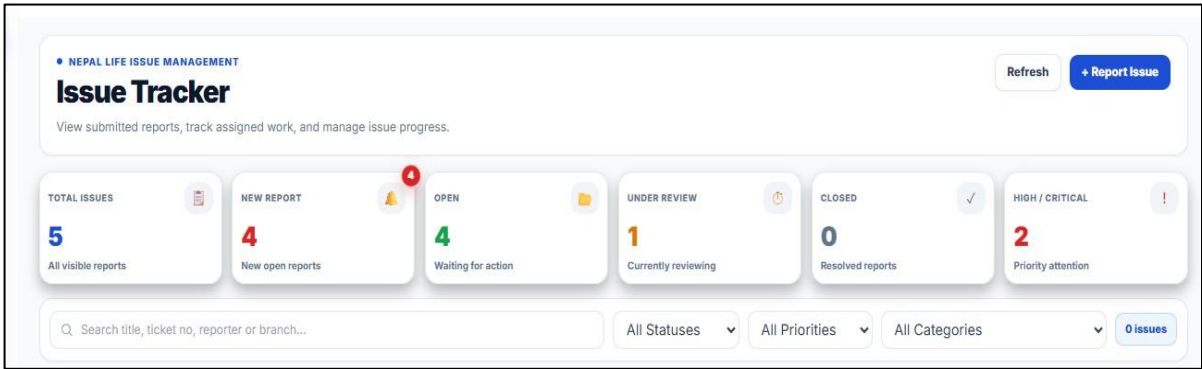

Fig: Status Card.

Issue Table Basket:

The **Issue Table** displays all reported issues and their details, including status, priority, category, assignee, and progress. Users can search, filter, and access individual issue records for review, updates, or further action.

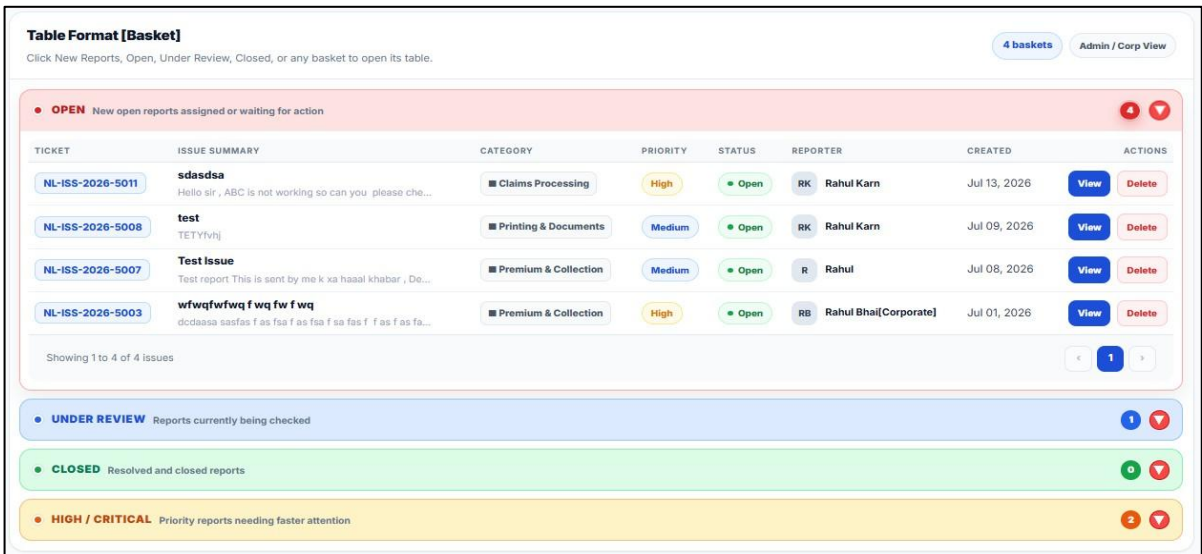

Fig: Issue Tables.

New Issue Report:

1. From the Issue Tracker Dashboard, click the Report Issue button located at the top-right corner of the page.

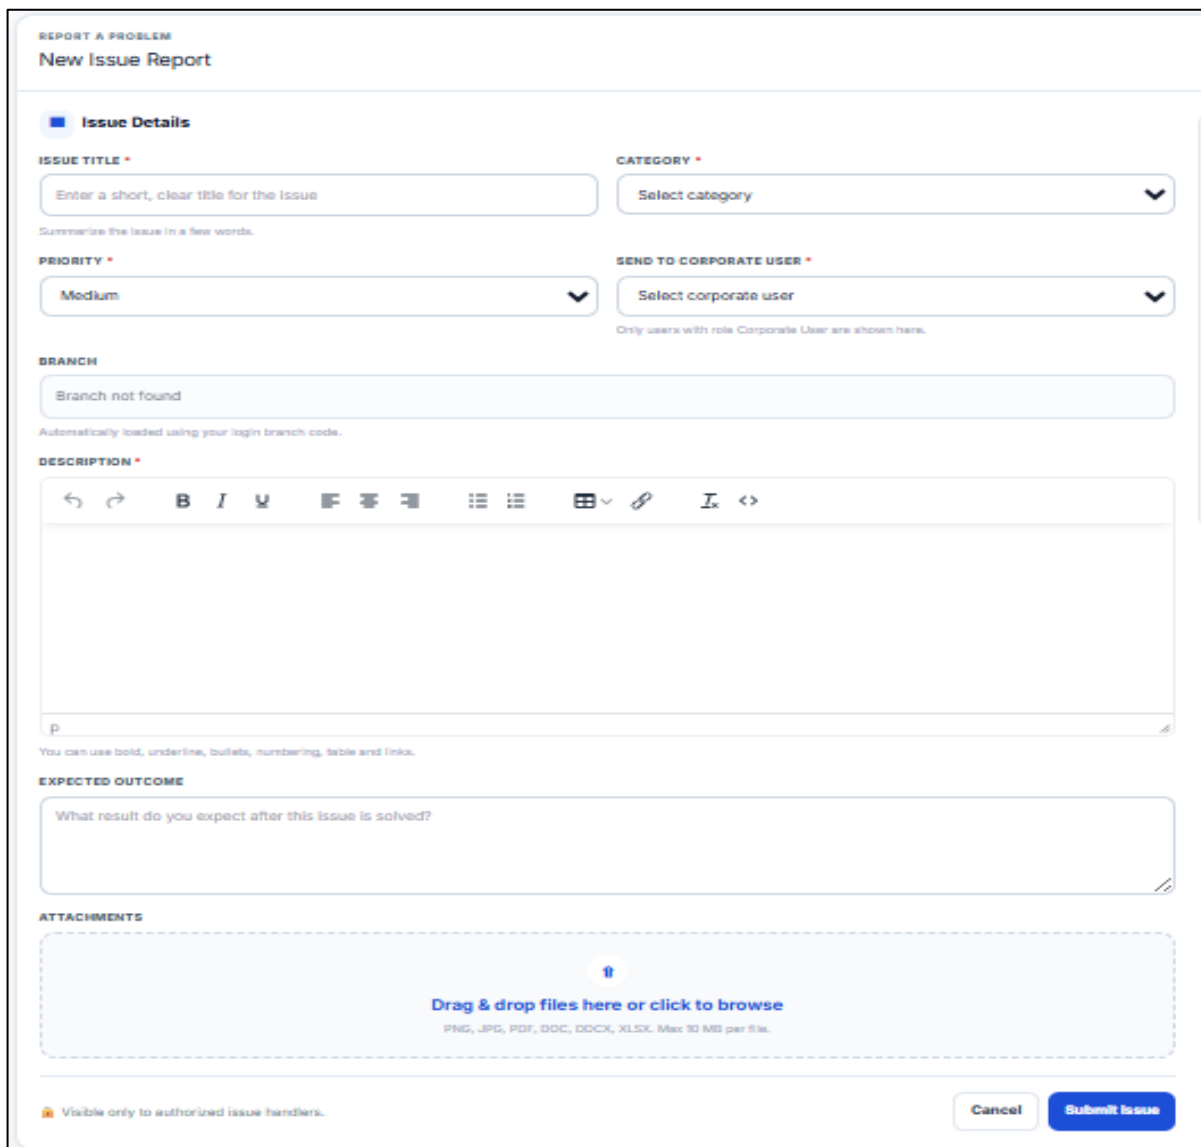

NEPAL LIFE ISSUE MANAGEMENT

Issue Tracker

View submitted reports, track assigned work, and manage issue progress.

Refresh + Report Issue

2. The New Issue Report form will open, allowing you to enter the required issue details and submit the report.

Cancel Submit Issue

Fig: Issue Report Form.

Steps to Report a New Issue:

1. Enter a clear and concise **Issue Title**.
2. Select the appropriate **Category** and **Priority**.
3. Choose the **Corporate User** to whom the issue will be assigned.
4. Verify the automatically populated **Branch** information.
5. Provide a detailed **Description** of the issue.
6. Enter the **Expected Outcome** after the issue is resolved.
7. Attach supporting documents or screenshots (optional).
8. Click **Submit Issue** to send the report or **cancel** to discard the form.

Once an issue is submitted, it is automatically forwarded to the selected **Corporate User** for review and resolution.

Responding to an Assigned Issue:

Once a new issue is submitted, the assigned Corporate User receives a notification through the New Report or Open status count on the Issue Tracker dashboard.

Steps to Review and Resolve an Issue

Step 1: Open the **Issue Tracker** page and click the **New Report** or **Open** status card to view newly assigned issues.
